

Assignment #1:

Using SQLite Browser complete the following:

Create and Populate 2 Tables with data from the Web.

- Use Protein or Gene sequence data from EMBL or NCBI
- One Table contains Sequence Information
- One Table contains meta data
- Each table should have multiple attributes.
- Each table should contain 2-3 records

Consider the number of attributes and which attributes you select.

Due to Dr. Carr via email by 8 a.m. on Thursday January 21st 2016

Email me the .db file with proper labeling.
